Light EU/GCP training for your employees

my gcp®

GCP Central enables your research staff to learn online about Good Clinical Practice rules and regulations applicable in the EU. Our elearning is designed according to the latest (mobile) technologies and easy accessible via desktop, tablet and mobile. The Light EU/GCP training is applicable for students and research staff who contribute to clinical research, but are not obliged to have complete knowledge of Good Clinical Practice. Choose the module that is applicable for their task in clinical research and easily extend with other modules when the tasks are extended.

A ligth EU/GCP certificate for you employees in **3** simple steps

1 Tailored advice

Call or email GCP Central for an offer that matches the need of your company. Choose which of the 6 steps modules you would like to offer your employees. We provide you with the license codes of the light EU/GCP training of your choice. Every license code can be activated until 1 year after issuing.

2 Hand out licenses

You decide to whom and when you will issue the license codes. We provide you with a standard email including login instructions for your employees, you add the license code to this email and send it to the applicable employees. Review the training progress of your participants or request update reports.

3 Follow training

In myGCP, the participant creates his personal account, and activates the license code. After activation, the participant can immediately start with the completion of the 2 elearning modules. When the training is completed, the participant can download the light EU/GCP certificate and will maintain access to the modules and myGCP for 1 year.
