

Your online introduction to your task in clinical research

GCP Central provides easy access to knowledge of Good Clinical Practice rules and regulations for everyone. Our elearning is low-cost and easy accessible via desktop, tablet and mobile. The Light EU/GCP training is applicable for all students and research staff who contribute to clinical research, but are not obliged to have complete knowledge of Good Clinical Practice. The elearning gives you knowledge of the basics of Good Clinical Practice. Choose the module that is applicable for your current task in clinical research and easily extend with other modules when your tasks are extended.

Your light EU/GCP certificate in 3 simple steps

1 Create account

Go to www.mygcp.nl and create your personal account. Activate your myGCP account via the activation link that is sent to your email address. Your myGCP account is active and ready for use.

2 Choose module

Go to the webshop of myGCP and read the module descriptions. Choose the module that includes your task(s) in clinical research. Easily pay online using iDeal. After successful payment, your chosen modules are directly accessible via the training page.

3 Follow training

Immediately start completing the 2 elearning modules, on your smart-phone, tablet or desktop. When you completed all assignments in both modules, your light EU/GCP certificate is available at your profile page. You will maintain access to the modules and myGCP for 1 year. For easy lookup or to receive regulatory updates.
