An online EU/GCP certificate for your employees in 3 simple steps

1 Tailored advice

Call or email GCP Central for an offer that matches the need of your company. Choose which license type is applicable for your employees: light, online, or blended? We provide you with the license codes of the EU/GCP training type of your choice. Every license code can be activated until 1 year after issuing.

2 Hand out licenses

You decide to whom and when you will issue the license codes. We provide you with a standard email including login instructions for your employees, you add the license code to this email and send it to the applicable employees. Review the training progress of your participants or request update reports.

3 Follow training

In myGCP, the participant creates his personal account, and activates the license code. After activation, the participant can immediately start with the completion of the elearning modules. When the training is completed, the participant can download the online EU/GCP certificate and will maintain access to the modules and myGCP for 1 year.
