

About GCP Central

GCP Central is a dynamic training agency that combines the latest insights on (e)-learning with knowledge of clinical research. Our goal is to make good clinical practice a core part of everyday practice by fueling research professionals with knowledge. Our online [GCP training](#) is interactive, lively and hands-on. The myGCP training platform adds a shared learning community and learning tools, maximizing clinical trial impact with continuous learning. We operate in healthcare, pharmaceutical & biotech industry and other kinds of clinical research organizations.
